

The Uvex Climazone goggle provides high impact protection in cold, extreme environments. The dual pane lens design, multi-port ventilation system and lens coatings help to reduce fogging, keeping lenses clear and workers safe. The soft face foam and wide headband adjusts to comfortably fit a variety of head sizes. Whether working outside in sub-zero temperatures or working inside a freezer, the Uvex Climazone delivers the comfort and performance workers want and the protection they need.

All Uvex® lenses offer 99.9% ultra-violet protection.

## Features

- Ski-inspired styling for cold and extreme weather conditions
- Dual pane lens design minimizes fogging by creating an airtight chamber that helps reduce heat transfer
- Anti-fog coating on the interior lens helps reduce fogging while our Ultra-dura® anti-scratch coating on the exterior lens resists scratching and enhances durability
- Top and bottom ventilation ports help create airflow to further minimize fogging
- Soft face foam and a wide adjustable headband provide a comfortable fit
- Easy and economical lens replacement system
- Available in Clear, Gray or Amber lens tints for a variety of applications
- **Not for chemical splash**
- Meets ANSI Z87.1-2010 for item numbers S390, S391 and S393
- Certified to the requirements of CSA Z94.3 standard for item numbers S390CSA, S391CSA and S393CSA
